PROFESSIONAL SUMMARY

Results-driven Frontend Developer with a B.Sc. in Computer Science and Informatics, specializing in building responsive, scalable, and accessible web applications using React.js, Next.js, TypeScript, and TailwindCSS. Experienced in translating UI/UX designs into pixel-perfect interfaces, integrating REST APIs, optimizing performance, and collaborating in Agile development teams to deliver seamless user experiences.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SCSS, Bootstrap, Material-UI, Chakra-UI, shadcn/ui.
- **State & Data:** REST APIs, Axios, Fetch, React Hooks, Context API, Zod.
- **Backend/Database:** Firebase, Python (basic).
- **Tools & Platforms:** Git, GitHub, Figma, VS Code, Chrome DevTools.
- **Testing & Performance:** Jest, Web performance optimization, Accessibility (a11y).
- **Concepts:** Responsive Design, Component Reusability, UI/UX Implementation, Agile/Scrum, Debugging, Version Control.

WORK EXPERIENCE

UPWORK - Remote

Freelance Frontend Engineer | May 2025 - Present

- Redesigned and optimized a client's navigation bar using React.js and TailwindCSS, improving usability and achieving full responsiveness across all devices.
- Deliver responsive, high-performance frontend solutions for global clients using React.js, Next.js, and TailwindCSS, ensuring clean UI and optimal UX.

AFRITECH DIGITAL HUB - Abuja, Nigeria (Remote)

Frontend Developer (Next.js) | Oct. 2025 – May 2026

- Translated Figma designs for the student Dashboard, Student Profile, platform settings, and chat modules into pixel-perfect interfaces using Next.js, TypeScript, and TailwindCSS, ensuring design accuracy and consistency in collaboration with UI designers.
- Integrated endpoints across the student portal, enabling dynamic real-time data rendering and improving application functionality and user interaction through close collaboration with backend developers.
- Optimized rendering strategies and applied Next.js best practices to improve the scalability and performance of the parent portal, resulting in faster page load times and a smoother user experience.
- Collaborated with 3+ frontend developers using Git and GitHub for version control, code reviews, and team collaboration, contributing to the efficient delivery of responsive and maintainable UI components.
- Built a reusable chat component using React state management and props, reducing code duplication and enabling consistent chat functionality across multiple pages.
- Resolved Git merge conflicts and maintained clean version control workflows, improving development efficiency, team collaboration, and codebase stability.

NATIONAL YOUTH SERVICE CORPS (NYSC) - Nigeria

Software Engineering Tutor (Corps member) | April 2024 - March 2025

- Taught 30+ students programming fundamentals, web development, and digital literacy, achieving a 95% course completion rate through structured, learning sessions.
- Collaborated with 6 corps members to design and deliver 3 ICT curricula for Scratch programming workshops, impacting 60+ learners through project-based modules.
- Executed digital literacy programs introducing ICT tools to 100+ underserved individuals, helping bridge the digital divide.

STUTERN - Lagos, Nigeria (Remote)

Frontend Developer Intern | Sep. 2022 - Aug. 2023

- Built 5+ responsive web applications using HTML, CSS, JavaScript, and React.js, improving usability across mobile and desktop platforms.
- Translated Figma designs into pixel-perfect, responsive UI components using React and CSS, while collaborating with designers and backend developers under mentorship to deliver scalable features for a loan management application.
- Integrated APIs for dynamic features (filtering, search, real-time data) in applications such as a Star Wars movie app and profile search app.
- Implemented form validation and data submissions to backend API using Axios in React applications.
- Built a task manager application with full CRUD functionality using JavaScript and localStorage for persistent data storage.
- Used Git and GitHub for version control and collaborative development within frontend team.
- Debugged and resolved frontend issues, improving application stability and user experience.

Relevant Projects: [Loan Wise](#), [Star War Movies App](#), [Profile Search App](#), [React Contact Form](#), [Task Manager App](#).

Frontend Internship Certificate - [[View Certificate](#)]

ICT CENTER, FEDERAL UNIVERSITY OTUOKE - Bayelsa, Nigeria

Software Engineering Intern (SIWES) | Dec. 2020 - April 2021

- Built 2 responsive web pages using HTML, CSS, and JavaScript as part of structured Web Development training.
- Managed data entry and registration for 50+ student ID cards and 500+ JAMB candidates using the university MIS and JAMB e-Facility/CAPS, ensuring data accuracy and eliminating duplicate records.
- Supported ICT operations including software installation, system maintenance, and basic network configuration, improving system reliability.
- Developed practice projects including:
 - [Baby Zoo Quiz](#) - Interactive quiz application with real-time score calculation after submission.
 - [Web3 Contact Form](#) - Secure contact form with validation and hCaptcha integration to prevent spam submissions.

EDUCATION

B.Sc. Computer Science and Informatics

Federal University Otuoke Bayelsa State, Nigeria | Nov. 2018 - Dec 2023

Second Class (Upper division)

PROJECTS

TROVICA - Digital Agency Website

<https://trovica.netlify.app/>

- Built a fully responsive digital agency website using React and TailwindCSS to showcase services (web design, development, branding) and improve online visibility.
- Implemented a component-based architecture with Framer Motion animations to enhance UI engagement and code reusability.

SHORTLY - URL Shortening Landing page

<https://shortly-pi-coral.vercel.app/>

- Developed a responsive URL shortening app using React, TypeScript, TailwindCSS, and third-party API, enabling users to shorten long URLs, copy them instantly, and persist their shortened URLs across page reloads.
- Implemented LocalStorage persistence, copy-to-clipboard functionality, form validation, and error handling to improve usability and ensure reliable user input.

COUNTRIES EXPLORER - REST Countries API App

<https://rest-countries-api-with-color-theme-switcher-byoge.vercel.app/>

- Built an interactive Countries Explorer application using React, Material UI, and REST Countries API, featuring search for specific countries, filter by region, view detailed country Information, and dark/light theme toggle.
- Designed a fully responsive UI for seamless browsing of country data across mobile, tablet, and desktop devices.

LICENSES & CERTIFICATIONS

- **Udemy** - Introduction to Software Engineering and Software Design | [\[View Certificate\]](#)
- **Klusterton Hackathon 2023** - Certificate of Participation | [\[View Certificate\]](#)
- **NYSC** - Certificate of Service | [\[View Certificate\]](#)

SOFT SKILLS

- Effective Communication & Teamwork
- Excellent Problem Solving & analytical skills
- Attention to Detail
- Time Management
- Adaptability
