PROFESSIONAL SUMMARY

Results-driven Frontend Developer with a B.Sc. in Computer Science and Informatics, skilled in React, Next.js, TypeScript, JavaScript (Es6+) and Tailwind CSS, with proven experience building responsive, accessible, and user-focused web applications in Agile environments.

WORK EXPERIENCE

UPWORK - Remote

Freelance Frontend Engineer | May 2025 - Present

- Redesigned and optimized a client's navigation bar using React.js and TailwindCSS, improving usability and achieving full responsiveness across mobile, tablet, and desktop devices.
- Deliver responsive, high-performance frontend solutions for global clients using React.js, Next.js, and TailwindCSS, ensuring clean UI and optimal user experience.

AFRITECH DIGITAL HUB - Abuja, Nigeria (Remote)

Frontend Developer (Next.js) | Oct. 2025 – April 2026

- Developed responsive and accessible user interfaces that improved cross-browser compatibility and usability by building reusable UI components using Next.js, Tailwind CSS, and TypeScript while collaborating with backend developers and designers.
- Improved application performance and scalability by optimizing frontend code, implementing efficient rendering techniques, and applying modern React/Next.js best practices, resulting in faster page load times and smoother user experience.

NATIONAL YOUTH SERVICE CORPS (NYSC) - Nigeria

Software Engineering Tutor (Corps member) | April 2024 - March 2025

- Taught 30+ students fundamental computer programming, web programming, and digital literacy, achieving a 95% course completion rate through interactive and practical learning sessions.
- Designed and delivered 3 ICT curricula for Scratch programming workshops, impacting 100+ learners, by creating engaging, project-based modules.
- Executed community outreach programs, bridging the digital gap for 200+ underserved individuals, by introducing digital tools and ICT awareness.

STUTERN - Lagos, Nigeria (Remote)

Frontend Developer Intern | Sep. 2022 - Aug. 2023

- Built 4+ responsive web applications using HTML, CSS, JavaScript, and React.js, improving user experience across mobile and desktop devices.
- Translated Figma designs into pixel-perfect interfaces, ensuring high UI accuracy and consistency with design specifications.
- Collaborated with cross-functional teams (designers and backend developers) under the guidance of a mentor to deliver scalable features and enhance product usability.
- Integrated REST APIs to display dynamic data, improving application functionality and real-time user interaction.

- Optimized web performance, reducing page load time by up to 30% through efficient component structuring and asset optimization.
- Identified and resolved frontend bugs, improving application stability and overall user experience.
- Used Git and GitHub for version control, enabling effective team collaboration and code management.

Relevant Projects: [Loan Wise](#), [Google Clone](#), [Star War Movies](#), [Netflix Landing Page Clone](#)
Stutern Internship Certificate – [[View Certificate](#)]

ICT CENTER, FEDERAL UNIVERSITY OTUOKE - Bayelsa, Nigeria

Software Engineering Intern (SIWES) | Dec. 2020 - April 2021

- Strengthened knowledge in HTML, CSS, and JavaScript through structured training and hands-on practice.
- Processed registration for 50+ student ID cards and 500+ JAMB candidates using the university MIS and JAMB e-Facility/CAPS, reducing data entry errors and duplicate records.
- Supported ICT operations by installing software and configuring networks, improving system reliability through proactive troubleshooting and maintenance.

Practice Project: [Baby Zoo Quiz](#)

EDUCATION

B.Sc. Computer Science and Informatics

Federal University Otuoke Bayelsa State, Nigeria | Nov. 2018 - Dec 2023

Relevant Coursework: Software Engineering, Web Programming, OOP, Data Structures & Algorithms, AI, Compiler Design, Database Management.

Thesis Project: Designed and implemented an OCR system using React and Tesseract.js, improving recognition accuracy by 37.93% and achieving 99.41% classification accuracy.

Extracurriculars: Active Google Developer Student Club (GDSC) FUO Chapter member, collaborated on student-led tech projects and fostering digital innovation.

LICENSES & CERTIFICATIONS

- **Udemy** - Introduction to Software Engineering and Software Design | [\[View Certificate\]](#)
- **Klusterton Hackathon 2023** - Certificate of Participation | [\[View Certificate\]](#)
- **NYSC** - Certificate of Service | [\[View Certificate\]](#)

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript, Python.
- **Frameworks & Libraries:** React.js, Next.js, Tailwind CSS, Bootstrap, Material-UI, Chakra-UI.
- **Databases:** Firebase.
- **Tools & Platforms:** Git, GitHub, npm, VS Code, Webpack, Sass, Figma, Chrome DevTools.
- **Testing & Performance:** Jest, Vite, Debugging.
- **Methodologies:** Agile, Scrum.
- **Core Competencies:** Responsive Design, REST API Integration, Performance Optimization, Debugging, UI/UX Implementation.

PROJECTS

- Developed [Trovisa](#), a responsive multi-page digital agency website that improves business online visibility and engagement by implementing a component-based architecture and interactive animations using React, TailwindCSS, and Framer Motion.

- Developed [Shortly](#), a responsive URL Shortening landing page that enables users to shorten, copy, and persist links across page reloads using React, TypeScript, TailwindCSS, and localStorage to ensure seamless state management and user experience.
- Built a [Countries Explorer](#) app, enabling 100+ users to access country data efficiently, by integrating REST Countries API, React.js, and Material UI, with dark/light mode.

SOFT SKILLS

- Effective Communication & Teamwork
- Excellent Problem Solving & analytical skills
- Attention to detail
- Time Management
- Adaptability
